

Support Shed Accessory Series

U-SHAPED KARAN

Used to fix U-shaped sheds to ensure the stable connection of the shed frame and improve the overall support strength. Mainly made of Q235 or alloy steel with hot-dip galvanized surface for rust prevention. By tightening the nut, it can effectively prevent the displacement of the shed frame and enhance the reliability of roadway support.

PRODUCT PARAMETERS

Model	Dimension (mm)	Weight (kg)	Bolt Specification	Bolt Length (mm)	Average Working Resistance (kN)	Clamp Plate Thickness Error (mm)	Clamp Plate Width Error (mm)	Bolt Hole Pitch Deviation (mm)
25U single clamp	14×70×24	3.5	M24	35	≥ 100	±0.5	±0.2	±1
25U double clamp	14×80×24	5.5 - 5.7			≥ 100			
29U single clamp	14×70×24	4.1			≥ 140			
29U double clamp	16×90×24	9			≥ 140			
36U double clamp	20×100×30	12.5			≥ 190
