

Drill Pipe Series

COAL DRILL ROD

The coal drill pipe body is a hot-forged twist spiral made of alloy steel, undergoing vacuum quenching and tempering treatment. Mainly used for drilling during coal mine mining, it is used with coal electric drills and other drilling rigs.

Solid Twist Coal Drill Pipe
(Dry Type)

Hollow Twist Coal Drill Pipe
(Wet Type)

PRODUCT PARAMETERS

Specification			Joint Size	Theoretical Torque (N·m)	Connection Method
Helix Diameter	Rod Body Diameter	Length			
Φ26mm	Φ16mm	500-3000mm	M16×1.5	100-150N·m	Threaded Connection
Φ28mm	Φ16-18mm	500-3000mm	F12/M18×1.5	100-150N·m	Square/Threaded
Φ30mm	Φ16-18mm	500-3000mm	F12/M18×1.5	100-150N·m	Square/Threaded
Φ32mm	Φ18-22mm	500-3000mm	F12/M18×1.5	100-150N·m	Square/Threaded
Φ38mm	Φ21-22mm	500-3000mm	F14/Tr16	150-350N·m	Square/Threaded
Φ40mm	Φ21-22mm	500-3000mm	F14/Tr16	150-350N·m	Square/Threaded
Φ42mm	Φ21-22mm	500-3000mm	F14/Tr16	150-350N·m	Square/Threaded
