

Agitator Series

MINING ANCHOR MIXER

Specially designed for roadway support, it is used with anchor bolt drill to agitate and install anchor cables. It can connect the drill with the anchor cable steel strand and agitate the resin anchor agent to realize rapid installation.

Extended Anchor Cable Agitator

PRODUCT PARAMETERS

Model	Surface Hardness	Bending Resistance	Bearable Torque (N.m)	Straightness (mm/1.0mm)
Ordinary Anchor Cable Agitator	≥ 25	No fracture or residual bending deformation under 250N.m bending moment, deformation ≤ 1.6mm/mm	≥ 250	≤ 1.0
Extended Anchor Cable Agitator
