

MULTIFUNCTIONAL ROTARY AXIS (42 MOTOR)

› Product size: 241mmX141mmX125mm

› **Electric Motor:** 42 Stepper Motor

› **Processing Range:**

These chuck jaws fit small tubular workpieces like rings and bracelets, and work great with a tailstock for spherical parts. Short jaws suit teacups, mugs and glasses, and can machine handled cups with a tailstock. Long jaws excel at workpieces with curved edges, performing better alongside a tailstock. The rubber spindle is for standard cylindrical objects, and handles long pieces such as bats and cues when used with a tailstock.
