

Woven Metal Mesh Series

Stainless steel mesh

Stainless steel mesh is manufactured from high-quality stainless steel wire through weaving or welding; it offers excellent corrosion resistance, high-temperature resistance, and mechanical strength, making it suitable for a wide range of complex environments.

Product detail

Product Name	Stainless steel mesh
Material	201, 304, and 316 stainless steel wire
Wire diameter	0.02mm – 6mm
Pore size	0.1mm – 50mm
Weaving method	Plain weave, twill weave, Dutch weave
width	0.5m – 2m
length	10m – 30m
Surface characteristics	Acid and alkali resistant, rust-proof, and high-temperature resistant.
Application Areas	Filtration, chemical industry, food processing, protective applications, etc.
