

Steel Grating Series

Press-locked steel grating

Press-locked steel gratings are manufactured using a press-locking process that eliminates the need for welding; they feature a neat, aesthetically pleasing structure and offer flexible installation, making them suitable for applications requiring high precision and a refined appearance.

Product detail

Product Name	Press-locked steel grating
Material	Carbon steel, stainless steel, galvanized steel
Surface treatment	Hot-dip galvanizing, electro-galvanizing, spray paintingHot-dip galvanizing, electro-galvanizing, natural finish
Flat steel thickness	3mm – 8mm
Flat bar height	20mm – 100mm
Crossbar configuration	Press-locked (interlocking)
Grid spacing	30×30mm / 40×40mm / 50×50mm
width	1m – 6m
Load-bearing capacity	High load-bearing capacity, slip-resistant, ventilated, and light-permeable.
Packaging Method	Steel strapping, pallets
Application Areas	Platforms, walkways, suspended ceilings, decorative works, industrial protection, etc.
