Underfloor heating mesh

Underfloor heating mesh is manufactured by welding high-quality low-carbon steel wire; it features a flat surface and a stable structure, effectively securing heating pipes while enhancing construction efficiency and overall stability.

Product detail

Product Name	Underfloor heating mesh
Material	Low-carbon steel wire
Surface treatment	Cold galvanizing, hot-dip galvanizing
Wire diameter	2mm – 6mm
Mesh size	50×50mm / 100×100mm / 150×150mm
width	1m – 2m
length	1m – 6m
Welding method	Precision spot welding
Application Areas	Underfloor heating installation, floor reinforcement, construction projects, etc.
