Zinc-steel guardrail

Zinc-steel guardrails are made of hot-dip galvanized steel with an electrostatic spray finish, offering excellent corrosion resistance, a neat appearance, and a long service life.

Product detail

Product Name	Zinc-steel guardrail
Material	Galvanized steel pipe, high-strength galvanized steel
Surface treatment	Hot-dip galvanizing, electrostatic powder coating, spray coating
Pipe wall thickness	0.8mm – 2.0mm
Crossbeam specifications	30×40mm / 40×40mm
Column specifications	50×50mm / 60×60mm / 80×80mm
Guardrail height	1m – 3m
Guardrail width	2m – 3m
Connection method	Snap-fit / Weld-fixed
color	White, black, green, gray / Customizable
Packaging Method	Waterproof film, pallets, and steel strapping
Application Areas	Perimeter protection for residential complexes, municipal areas, villas, schools, factories, and other sites.
