Garden fence

Garden fencing is manufactured from high-quality galvanized or low-carbon steel wire and undergoes anti-corrosion treatments such as galvanizing and powder coating. It is aesthetically pleasing, durable, and easy to install, offering both security and decorative appeal for courtyards, gardens, and landscaped areas.

Product detail

Product Name	Garden fence
Material	Galvanized steel pipe
Surface treatment	Powder coating
Panel width	2000mm
Panel height	1200mm、1500mm
