

Product Center

Cattle fence / Livestock fencing

Woven from high-strength steel wire, the livestock fencing features a stable structure and high tensile strength; it offers excellent protective and partitioning capabilities, making it suitable for large-scale fencing applications.

Product detail

Product Name	Cattle fence / Livestock fencing
Material	High-strength galvanized steel wire, low-carbon steel wire
Surface treatment	Hot-dip galvanizing, heavy-duty galvanizing
Wire diameter	1.8mm – 3.0mm
Mesh type	Variable aperture design
Net height	0.8m – 2.4m
Roll length	30m / 50m / 100m
Number of horizontal threads	6–20 pieces
Connection method	Steel wire tying and column securing
color	silver
Packaging Method	Roll packaging, waterproof film wrapping
Application Areas	Grassland fencing, ranching, farmland protection, mountain enclosure, livestock isolation, etc.
