

Woven Metal Mesh Series

Galvanized mesh

Galvanized mesh is made from high-quality steel wire treated with either electro-galvanizing or hot-dip galvanizing; it offers excellent rust resistance and structural stability, making it an economical and practical choice.

Product detail

Product Name	Galvanized mesh
Material	Low-carbon steel wire
Surface treatment	Electro-galvanizing, hot-dip galvanizing
Wire diameter	0.3mm – 5mm
Pore size	5mm – 100mm
width	0.5m – 2m
length	10m – 30m
Performance Characteristics	Rust-proof, corrosion-resistant, and weather-resistant
Application Areas	Fencing, protective barriers, construction, animal husbandry, etc.
