

MYH Slurry Pump

SLURRY PUMP

Technical parameters

flow	10.8-5400m ³ /h
Yangcheng	3-118m
motor power	15-1200KW
Material	The pump body has a replaceable metal or rubber liner, and the impeller is made of wear-resistant metal or rubber.
Transport medium	Shaft seal for conveying highly abrasive, high-concentration slurry
shaft seal	Packing seals or centrifugal seals can be used.
Scope of application	Mining, power, metallurgy, coal, building materials
